

Produktnamn	CPE CATV modul 1GHz, 83dB For CPE RC-CP5/9
E-nummer	5178841
Produkttyp	RC-FTTHVRM-A
GTIN	7332811186943
ETIM-klass	EC000423

PRODUKTSPECIFIKATIONER

With every product we have a wide range of accessories to choose from. Depending on how the product needs to be mounted we have solutions as normal fiber management, mounted via screws and via strong magnet which is ideal for power cabinets.

We have also a 81dB and 86dB CATV module that can be used together with the CPE (if the CPE has support for it). The module is highly integrated with the fiber management module so we do not recommend using it without such module.

Our white Power Supply Unit has also been made available for sales and can be found in the list below.

83dB CATV modul för RC-CP5/9 (djup).
